VERIFIED BY VISA

Verified by Visa, also known as 3D Secure, is intended to secure credit card transactions over the internet. It protects a buyer’s credit card against unauthorized use when shopping online. This service enables buyers to validate transactions made over the internet by requesting a personal code (usually sent to your cell phone or email address as a one-time PIN). It helps protect against fraudulent use by unauthorized individuals. Please note that Verified by Visa does not totally eliminate fraud, so be sure that your online transactions are made only on secure sites.
